

Safety Data Sheet

EnviroMax Fipronil Cockroach Gel Bait

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name: EnviroMax Fipronil Cockroach Gel
Other means of identification: Fipronil Gel Bait
Recommended use of the chemical and restrictions on use: For the control of cockroaches by professional pest control operators as per the directions for use.
Supplier: EnviroMax Technologies Pty Ltd
ABN: 132 643 577
Street Address: 504 Boundary Road, Archerfield QLD 4108, Australia
Telephone No: + 61- (0) 409 926 561
Fax: +61-7-3386 3333
Email: www.awct.com.au
Distributed by: Australasian Wholesale Chemical Technologies Pty Ltd
PO Box 984
North Lakes QLD, Australia 4509
Emergency Telephone: + 61- (0) 409 926 561

2. HAZARDS IDENTIFICATION

Classification of the substance mixture: Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition).

Not classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

The following health hazard categories fall outside the scope of the Workplace Health and Safety Regulations :

Acute Aquatic Toxicity - Category 3

Chronic Aquatic Toxicity - Category 3

Hazard Statement(s):

H402 – Harmful to aquatic life.

H412 – Harmful to aquatic life with long lasting effects.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS Number	Proportion (w/w)
The components in this formulation are considered not to be hazardous and therefore are not required to be disclosed according to the WHS Regulations. Following is the information for the active constituent which is not classified as hazardous in this formulation.		
Fipronil	120068-37-3	0.05%

4. FIRST AID MEASURES

For advice, contact a Poisons Information Centre (e.g. phone Australia 131 126; New Zealand 0800 764 766) or a doctor.

Inhalation: There is no inhalation risk with this product. Bring affected person to fresh air.
Skin Contact: If skin or hair contact occurs, remove contaminated clothing and wash skin and hair with soap and water. If irritation occurs seek medical advice.
Eye Contact: If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre or a doctor, or for at least 15 minutes.

Safety Data Sheet

EnviroMax Fipronil Cockroach Gel Bait

Ingestion: Rinse mouth with water. If swallowed, do NOT induce vomiting. Give a glass of water. Seek medical advice.

First Aid Facilities: Eyewash and normal washroom facilities.

Indication of immediate medical attention and special treatment needed: Treat symptomatically.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Use water spray, foam, dry chemical or carbon dioxide.

Specific hazards arising from the substance or mixture: The following substances can be released if involved in a fire: Carbon monoxide, carbon dioxide, hydrogen chloride, hydrogen fluoride, nitrogen oxides, sulfur oxides, organochlorine compounds.

Special protective equipment and precautions for fire-fighters: Fire fighters should wear self-contained breathing apparatus and suitable protective clothing to prevent risk of exposure to products of decomposition.

6. ACCIDENTAL RELEASE MEASURES

Emergency procedures/ Environmental precautions: Clear area of all unprotected personnel. Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater. If contamination of sewers or waterways has occurred advise local emergency services.

Personal precautions/ Protective equipment: Slippery when spilled. Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contact and breathing in vapours. Work up wind or increase ventilation.

Methods and materials for containment and cleaning up: Contain - prevent run off into drains and waterways. Wipe up spills with paper towel or textile cloth and dispose in accordance with regulations. Clean contaminated floors and surfaces thoroughly with water and detergents.

7. HANDLING AND STORAGE

Precautions for safe handling: Keep containers closed at all times - check regularly for leaks or spills. Transport and store upright. Avoid skin and eye contact. Keep out of reach of children. Do not eat, drink or smoke in contaminated areas. Always remove contaminated clothing and wash hands before eating, drinking, smoking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use.

Conditions for safe storage, including any incompatibilities: Store in the original container, in a cool, dry, well-ventilated, locked place, out of the reach of children. DO NOT store in direct sunlight. Protect from temperatures above 30°C. Keep containers closed when not in use - check regularly for leaks.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters: No value assigned for this specific material by Safe Work Australia. No biological limit allocated.

Appropriate engineering controls: Use in well ventilated areas. Keep containers closed when not in use.

Individual protection measures, such as Personal Protective Equipment (PPE): The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors. Observe good standards of hygiene and cleanliness. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use.

Respiratory Protection: A respirator is not needed under normal and intended conditions of product use however if ventilation is not adequate then a respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716.

Eye and Face protection: Safety glasses/goggles with side shield protection may be worn as a general

Safety Data Sheet

EnviroMax Fipronil Cockroach Gel Bait

Skin Protection:

precaution. Consult AS/NZS 1336 and AS/NZS 1337 for further information. Gloves may be worn as a general precaution. Always check with the glove manufacturer or your personal protective equipment supplier regarding the correct type of glove to use. Consult AS/NZS 2161 for further information. Trousers, long sleeved shirt or overalls and closed in shoes or safety footwear may also be worn as a general precaution. Consult AS/NZS 2210 and AS/NZS 2919 for further information.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state:	Gel
Colour:	Yellowish - brown
Odour:	Unique
pH (1% solution):	6 - 7
Specific Gravity:	1.2 – 1.4
Melting Point/Freezing Point:	No information available
Boiling Point/Range:	No information available
Flash Point:	Non-flammable
Evaporation Point:	No information available
Vapour Pressure:	No information available
Vapour Density:	No information available
Solubility:	No information available
Partition coefficient: n- octanol/water	Fipronil 4.0 (20°C)
Auto-ignition Temperature:	415°C
Decomposition Temperature:	No information available
Viscosity:	800,000-1,200,000 cP
Explosive properties:	None; not shock or thermally explosive.
Oxidising properties:	None; non-reactive to iron filings, plastic and mineral spirits.

10. STABILITY AND REACTIVITY

Reactivity:	Non-reactive under normal conditions.
Chemical stability:	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Possibility of hazardous reactions:	Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid:	None known.
Incompatible materials:	No particular incompatibilities.
Hazardous decomposition products:	No hazardous decomposition products if stored and handled as prescribed / indicated.

11. TOXICOLOGICAL INFORMATION

Acute toxicity:	Oral LD50 (calculated from ingredients) > 5000 mg/kg Dermal LD50 (calculated from ingredients) > 5000 mg/kg Inhalation LD50 (vapour, calculated from ingredients) > 20 mg/L Inhalation LC50 (4hr, rat, Fipronil) 0.36 mg/L
Ingestion:	Available information indicates that it is not considered an acute oral toxicant.
Inhalation:	Available information indicates that it is not considered an inhalation risk.
Skin:	Not considered a skin irritant.
Eye:	Not considered an eye irritant.
Respiratory or skin sensitisation:	Not a skin sensitizer and not expected to be a respiratory sensitizer.
Germ cell mutagenicity:	Not considered to be a mutagenic hazard.
Carcinogenicity:	Not considered to be a carcinogenic.
Reproductive toxicity:	Not considered to be toxic to reproduction.

Safety Data Sheet

EnviroMax Fipronil Cockroach Gel Bait

STOT-single exposure:	Not expected to cause toxicity to a specific target organ.
STOT-repeated exposure:	Not expected to cause toxicity to a specific target organ.
Aspiration hazard:	Not expected to be an aspiration hazard.
Other information:	Misuse can be harmful to health.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Do not discharge product into the environment without control.

	Information on Fipronil technical grade active constituent:
Fish:	LC50 (96 h): 0.25 mg/l, <i>Oncorhynchus mykiss</i> LC50 (96 h): 0.0852 mg/l, <i>Lepomis macrochirus</i> LC50 (96 h): 0.43 mg/l, <i>Cyprinus carpio</i>
Aquatic invertebrates:	EC50 (48 h): 0.19 mg/l, <i>Daphnia magna</i>
Aquatic plants:	EC50 (96 h): 0.068 mg/l (biomass), <i>Scenedesmus subspicatus</i>
Persistence/degradability:	Fipronil is not readily biodegradable.
Bioaccumulative potential:	The Bioconcentration factor for Fipronil is 321 (<i>Lepomis macrochirus</i>)
Mobility in Soil:	No information available

13. DISPOSAL CONSIDERATIONS

Disposal methods: Refer to Waste Management Authority. Dispose of contents/container in accordance with local/regional/national/international regulations. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in the garbage. Do NOT contaminate streams, rivers or waterways with the chemical or used containers.

14. TRANSPORT INFORMATION

Road and Rail Transport:	Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.
Marine Transport:	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea; NON-DANGEROUS GOODS.
Air Transport:	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air; NON-DANGEROUS GOODS.

15. REGULATORY INFORMATION

Poison Schedule (SUSMP):	Not scheduled
APVMA:	80736
AICS:	All the constituents of this material are either listed on the Australian Inventory of Chemical Substances (AICS), not required due to the nature of the chemical, or have been assessed under the National Industrial Chemicals (Notification and Assessment) Act 1989 as amended.

16. OTHER INFORMATION

General Information:	None
Issue Number:	003
Issue Date:	12 August 2016
In any event, the review and, if necessary, the re-issue of an SDS shall be no longer than 5 years after the last date of issue.	
Reason(s) for Issue:	Third Issue. Updated the header information.
Literary Reference:	None

Safety Data Sheet

EnviroMax Fipronil Cockroach Gel Bait

Key abbreviations or acronyms used:

ADG Code - Australian Code for the Transport of Dangerous Goods by Road and Rail (7th edition)
AICS - Australian Inventory of Chemical Substances
AgVet Code Act 1994 – Agricultural and Veterinary Chemicals Code Act 1994
APVMA – Agricultural Pesticides and Veterinary Medicines Australia
GHS - Globally Harmonised System of Classification and Labelling of Chemicals (3rd revised edition) 2009
IARC - International Agency for Research on Cancer
LD₅₀ or LC₅₀ – Estimated lethal dose / concentration to kill 50% of the population/sample.
Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice (December 2016)
STEL - Short term exposure limit means the average airborne concentration of a substance calculated over a 15 minute period. The STEL should not be exceeded at any time during a normal eight hour working day.
STOT – Specific Target Organ Toxicity
SUSMP - Standard for the Uniform Scheduling of Medicines & Poisons
SWA - Safe Work Australia, formerly ASCC and NOHSC
TGA – Therapeutic Goods Australia
WHS – Workplace Health and Safety
